SUMMARY

Product Design Manager with 15+ years of experience in UX/UI and extensive expertise in AI, enterprise product design, design systems, and development. Partners with executive leadership and cross-functional teams to align customer needs, product strategy, and business goals. Leads cross-product design standards, governance, and DesignOps initiatives, leveraging AI-assisted design-to-code workflows and automation to improve experience quality, reduce development costs, and accelerate delivery. Builds scalable design practices that drive consistency, efficiency, and compounding business returns across products.

PROFESSIONAL EXPERIENCE

Product Design Manager

Mar 2025 - Present

Quorum Information Technologies Inc. | Calgary, AB

- Lead product design strategy with executive leadership, aligning user needs, business goals, roadmap priorities, and AI adoption.
- Evolve scalable design systems and processes, using AI to accelerate discovery, prototyping, validation, and implementation.
- Lead user research and cross-functional discovery, using AI-assisted analysis and insight synthesis to guide decisions and validate solutions.

Achievements:

- Established shared design standards while retaining distinct design languages for different technologies and frameworks, improving consistency across controls, interactions, and product experiences.
- Rebuilt the design workflow from a Figma-based source of truth to Git repository-based design generation using Claude Design, Claude Code, and MCP integrations.

Product Marketing Designer

Aug 2021 - Mar 2025

Quorum Information Technologies Inc. | Calgary, AB

- Conduct in-depth user research, including user interviews and usability tests, to validate and refine the product roadmap with user-driven insights and metrics while supporting discovery activities through customer feedback analysis.
- Develop wireframes, functional prototypes, and high-fidelity mockups to communicate design concepts effectively while maintaining and evolving design systems to ensure visual and functional consistency across products.
- Collaborate cross-functionally with marketing, product, and development teams to align design with business objectives and deliver cohesive, on-brand experiences based on industry best practices and research.

Achievements:

- Significantly improved the UX and UI of the company's products, including fourteen color themes for one of the company's products, resulting in increased sales, improved customer satisfaction, and higher retention.
- Redesigned and built six company websites, resulting in a significant increase in organic search and brand awareness. These changes helped initiate the generation of online leads through web forms, consistently bringing in new leads.

UX/UI Designer / Developer

Jul 2020 - Jul 2021

ServiceTO Inc. | Toronto, ON

- Created, supported and managed company websites and landing pages for various Google Ads and marketing campaigns, ensuring organization brand standards are met and maintained for all creative works.
- Developed the overall layout and production design for print and digital collateral including ads, brochures, newsletters, email templates, and social media headers to grow brand presence across all digital channels.

Achievements:

- Created a unique structure for landing pages that allowed for efficient and rapid creation. This helped decrease Google Ads costs and bring leads to their desired information, resulting in a lead conversion increase of up to 40%.

UX/UI Web Designer

Feb 2010 - May 2019

Web Studio (Co-founder) | Kharkiv, Ukraine

- Aligned business requirements with User-Centered Design (UCD) methodologies to create successful UI/UX designs, memorable visuals, UI elements, and corporate branding materials across various industries.
- Created and maintained Yii2 and CMS websites (WordPress, Webasyst - Shop-Script) while developing web content and layouts using HTML, CSS (LESS, Bootstrap), JavaScript (jQuery, Vue.js), and PHP (Yii2).

Achievements:

- Designed 30+ websites across various industries, including construction, education, music, and e-commerce.
- Created 50+ print materials and 20+ corporate branding and advertising projects.
- Uploaded and managed data for 10,000+ electronics and household products.

SKILLS

Design: B2B, B2C, and SaaS product design; UX/UI and interaction design; design systems; accessibility (WCAG); research, wireframes, and prototyping; responsive web design; visual and brand design; AI-assisted design workflows.

AI Tools & Integrations: Claude Design; Claude Code; MCP connectors; Agent Skills; AI agents; Cursor; GPT and OpenAI.

Design Tools / Programs: Claude Design; Figma; Adobe Creative Cloud (Photoshop, Illustrator, InDesign, After Effects, Premiere Pro); Inkscape; Google Web Designer; Blender (3D modelling).

Product Experience & Delivery: Jira; Aha!; task tracking; product roadmaps; backlog prioritization; sprint planning; cross-functional coordination.

Programming / Web: Advanced: HTML, CSS (SCSS, Less), SVG (SMIL). Moderate: JavaScript (jQuery, Vue.js), PHP (Yii2), MySQL. CMS: WordPress (WooCommerce), Webasyst - Shop-Script. Version control: Git.

Other Programs: Microsoft Word, Excel, PowerPoint; PowerBuilder; CRM: Salesforce, Zoho.

ADDITIONAL INFORMATION

Education

Master's degree in Economics, with Honors | 2009 | Kharkiv University of Humanities "People's Ukrainian Academy" | Kharkiv, Ukraine

Volunteering & Contributions

Share knowledge through conference presentations and participation in local design and product communities. Member and speaker, Calgary UX; member, Calgary Products.

VP of Education

Toastmasters International | Calgary, AB | 2025-2026. Coordinate educational programs, support members through Toastmasters Pathways, and celebrate their achievements.

Board Member

DDRC (Developmental Disabilities Resource Centre) | Calgary, AB | 2026-Present. Contribute to governance and strategic initiatives supporting people with developmental disabilities.

Figma Plugin

Designed a Figma plugin that generates table components with realistic data from CSV files, used by 1,000+ professionals.

Book in Progress

Currently writing Design Systems for the AI Era, exploring how design systems can provide the context needed for reliable, deterministic AI-assisted work, with practical guidance on implementation and ongoing maintenance.
