PROFESSIONAL EXPERIENCE

Product Design Manager

Mar 2025 to Present

Quorum Information Technologies Inc. - Calgary, AB

- Drive product design strategy aligned with business objectives while prioritizing exceptional user experiences, partnering with executive leadership to influence product vision, roadmap priorities, and the adoption of AI-augmented design practices across the product lifecycle.
- Oversee the development and evolution of scalable design systems and processes that ensure consistency, efficiency, and product quality, leveraging AI-driven tools to accelerate prototyping, component reuse, and implementation readiness.
- Lead advanced user research and discovery initiatives to inform strategic design decisions and validate solutions with measurable outcomes, using AI-supported analysis, insight synthesis, and experimentation workflows while facilitating cross-department collaboration and alignment throughout the ideation process.
- Leverage AI-driven tools and methodologies to accelerate ideation, discovery, validation, data analysis, prototyping, and design system implementation across projects and teams.

Achievements:

- Created a unified Design System by combining and consolidating styles from various products, establishing consistent design standards across the organization and significantly improving design efficiency and product cohesion.

Product Marketing Designer

Aug 2021 to Mar 2025

Quorum Information Technologies Inc. - Calgary, AB

- Conduct in-depth user research, including user interviews and usability tests, to validate and refine the product roadmap with user-driven insights and metrics while supporting discovery activities through customer feedback analysis.
- Develop wireframes, functional prototypes, and high-fidelity mockups to communicate design concepts effectively while maintaining and evolving design systems to ensure visual and functional consistency across products.

- Collaborate cross-functionally with marketing, product, and development teams to align design with business objectives and deliver cohesive, on-brand experiences based on industry best practices and research.
- Designed and maintained Quorum websites, landing pages, email campaigns, and social media content using HTML, CSS, and JavaScript to enhance engagement and conversions.

Achievements:

- Significantly improved the UX and UI of the company's products, including fourteen color themes for one of the company's products, resulting in increased sales, improved customer satisfaction, and higher retention.
- Redesigned and built six company websites, resulting in a significant increase in organic search and brand awareness. These changes helped initiate the generation of online leads through web forms, consistently bringing in new leads.
- Updated all of the company's document templates, making the work process easier and more efficient for each employee.

Web and Graphic Designer

Jul 2020 to Jul 2021

ServiceTO Inc. - Toronto, AB

- Created, supported and managed company websites and landing pages for various Google Ads and marketing campaigns, ensuring organization brand standards are met and maintained for all creative works.
- Developed the overall layout and production design for print and digital collateral including ads, brochures, newsletters, email templates, and social media headers to grow brand presence across all digital channels.
- Fulfilled creative briefs for marketing and communication campaigns, creating illustrated artwork and organizing the Communications and Marketing team's content library.

Achievements:

- Created a unique structure for landing pages that allowed for efficient and rapid creation. This helped decrease Google Ads costs and bring leads to their desired information, resulting lead conversion increase of up to 40%.

UX / UI Web Designer

Feb 2010 to May 2019

Web Studio (Co-founder) - Kharkiv, Ukraine

- Aligned business requirements with User-Centered Design (UCD) methodologies to create successful UI/UX designs, memorable visuals, UI elements, and corporate branding materials across various industries.
- Created and maintained Yii2 and CMS websites (WordPress, Webasyst - Shop-Script) while developing web content and layouts using HTML, CSS (LESS, Bootstrap), JavaScript (jQuery, Vue.js), and PHP (Yii2).
- Managed online store operations including content management, advertising, promotions, cost analysis, customer orders, supplier negotiations, and logistics coordination for 10,000+ products.

Achievements:

- Designed 30+ websites across various industries, including construction, education, music, and e-commerce.
- Created 50+ print materials and 20+ corporate branding and advertising projects.
- Uploaded and managed data for 10,000+ electronics and household products.

ADDITIONAL INFORMATION

Education:

Master's degree in Economics, with Honors

2009

Kharkiv University of Humanities "People's Ukrainian Academy"

Kharkiv, Ukraine

Volunteering & Contributions:

Engage in the design community through presenting at conferences to elevate the skills of fellow designers. Designed a widely adopted Figma plugin that generates table components with realistic data from CSV files, currently utilized by 1,000+ professionals.

VP of Education, Toastmasters International

Calgary, AB (2025–2026)

Mentor club members in developing public speaking, communication, and leadership skills. Coordinate educational programs, support members through the Toastmasters Pathways learning system, and celebrate their progress and achievements.

Board Member, DDRC (Developmental Disabilities Resource Centre)

Calgary, AB (2026–Present)

Contribute to organizational governance and strategic initiatives supporting individuals with developmental disabilities. Collaborate with board members and leadership to advance community impact, strengthen programs, and support inclusive services across the region.
